I was fortunate enough to be in the Beta Testing group for the pre-launch of these books. Fantastic! Like another reviewer here, I have been studying Italian for a couple of years using a variety of educational resources. I have certainly progressed using those tools but, honestly, Language Hacking has dramatically increased my ability and comfort level. The Beta Group had quite a few students who had little or no previous language experience. They all zipped right into the fray and were doing remarkably well with just a couple of chapters.Now, I think I would have saved myself considerable time and effort had this resource been available when I started. Ive traveled several times to Italy and manage to bungle through basic situations. The truth is that, as Benny so clearly states, there are some very common situations and common conversations ... why not cut to the chase and dig into *those* types of lessons!!!Combining this book with italki and Teach Yourself is brilliant. Ive used italki in my studies and I know that this LH will jump me back into that Skype world with more confidence and enthusiasm.Great job, Benny (and team). Thank you for helping me with my passion!!!
